

## Never ever

Black Milk

It burned like fire  
And took all night  
But still I heard you  
Saying you're mine  
Now I feel strong  
I'm feelin' fine  
Since I know  
Baby wants, baby wants, only my heart

I told you never, ever run from me  
And I thought if I never faltered you would see  
Baby please stay forever, come and blow my mind  
Give me love, give me love, gimme your heart

And I wanna get  
The things you do  
Just come and tell me  
What is true  
So I think twice  
To see the truth  
Still I know  
Baby wants, baby wants, only my heart

I never wanna doubt

And I belong  
I'm yours today  
I knew I would get you baby  
In every way  
Now I'm standin' tall  
And I feel delight  
'Cause I know
