

# Over

Black Milk

Played you by love  
Taught you to lust  
Just to get my way  
That's what you say  
Made you believe  
Had you deceived  
Under my control  
Taken its toll

(It's all over) It's all over  
(All in your mind) In your mind  
(It's all over) Never liked the way I play  
Now it's over, yesterday  
(It's all over) It's all over  
(Out of your mind) Of your mind  
(It's all over) Tried to make you want to stay  
Tried to love you everyday

Don't cry over me  
I won't cry over you  
At least I'll try this time  
Don't cry over me  
I won't cry over you  
At least until we say  
Goodbye

Never before  
Given up more  
Just to make you see  
How you see me (What I couldn't believe)  
Wasn't the one  
Made you to run  
Did that on your own  
Now you're alone

(It's all over) It's all over  
(All in your mind) In your mind  
(It's all over) Never liked the way I play  
Now it's over, yesterday  
(It's all over) It's all over  
(Out of your mind) Of your mind  
(It's all over) Tried to make you want to stay  
Tried to love you everyday

Don't cry over me  
I won't cry over you  
At least I'll try this time  
Don't cry over me  
I won't cry over you  
At least until we say  
Goodbye

Getting better...

(It's all over) It's all over  
(All in your mind) In your mind  
(It's all over) Never liked the way I play

Now it's over, yesterday  
(It's all over) It's all over  
(Out of your mind) Of your mind  
(It's all over) Tried to make you want to stay  
Tried to love you everyday

(It's all over) It's all over  
(Out of my mind) Of my mind  
(It's all over) Tried to make you want to stay  
Tried to love you everyday
