

## Night Walks

### Black Mountain

Night walks with me  
And moon leaves me  
Just enough light to see  
And the shadow  
My only company  
And it moves  
Just like me  
And it walks  
Just like me

Help me breathe  
I can only read  
What I see  
Be kind to me  
Cause the worst call now carefully  
And they break up easily  
And I woke up  
In between

Night walks with me  
And the moon leaves me  
Just enough light to see  
And the shadow  
My only company  
And it moves  
Just like me  
And it walks  
Just like me
