Autoblast

Black 'N Blue

Full speed ahead now, you're never lookin' back Turn up your radio, and the music will attack Just like a dinasour, get out of the way You've got the guts and energy, to blow them all away

Turn it up, supersonic sound Drive it up, rock it on the ground Get - out - everday, you ain't just havin' fun It's something you believe in, you wanna hit the sun

Autoblast Don't look back Autoblast Loud and fast

Out on the highway, middle of the night You're like a bullet with the pressure to ignite Your radio is sending signals to your brain This ain't no child's play, no it's not a game

Turn it up, pound into the night Drive it up, past the speed of light You've got everything at your fingertips It's something you believe in, the world is in your grip

Autoblast Don't look back Autoblast Loud and fast

It's alright, man and his machines `Cause he knows where he's goin' People, sometimes do believe This world it is turnin', just for you
