

# Miss Mystery

Black 'N Blue

Well the first time that I saw you  
You were runnin' with the wrong crowd  
With your head up in a dark cloud

You know I had this funny feelin'  
That you were gunnin' for trouble  
But I never knew  
So here I go just-a-runnin' after you

Hello Miss Mystery  
Here you are so far from me  
Someday Miss Mystery  
You'll spare me all this misery

We had a big misunderstanding  
You said love could tie you down  
You tell me you can't hang around

And now it's getting too demanding  
Yeah you're bringing me down  
You're playing your game  
I'm tied to the tracks just a-waiting for the train

Hello Miss Mystery  
Here you are so far from me  
Someday you'll set me free  
And spare me all this misery

Hello Miss Mystery  
Here I am, what's left of me  
Someday Miss Mystery  
You're gonna find out what you meant to me

And so I had this funny feeling  
I said forget about you  
Don't wanna pretend  
But here we are  
Right back where we began

Hello Miss Mystery  
Here you are so far from me  
Someday you'll set me free  
And spare me all this misery

Hello Miss Mystery  
Here I am, what's left of me  
Someday Miss Mystery  
You'll spare me all this misery
