

The Strong Will Rock

Black 'N Blue

Got a pounding fever, got a pounding beat
Gonna pound my heat into your meat
If you want it harder, that's what you'll get
I can tell you ain't seen nothin' yet
'Cause I got the feelin', and my time is right
We're gonna make this place alive tonight

All we need is you, I'm tellin' ya
Then the world will know, what we can do

The strong will always rock
The strong will always roll
The strong will survive, with rock `n' roll
The strong will always rock (the strong will always rock)
The strong will always roll (the strong will always roll)
The strong will survive, with rock `n' roll

We got the power and we got the will
And we never seem to get up hill
So we'll rock forever, 'cause we're feeling strong
We'll feel so good we can't be wrong

All we need is you, I'm tellin' ya
Then the world will know, what we can do

The strong will always rock
The strong will always roll
The strong will survive, with rock `n' roll
The strong will always rock (the strong will always rock)
The strong will always roll (the strong will always roll)
The strong will survive, with rock `n' roll

(Solo)

The strong will always rock
The strong will always roll
The strong will survive, with rock `n' roll
The strong will always rock
The strong will always roll
The strong will survive, with rock `n' roll

The strong will always rock (the strong will always rock)
The strong will always roll (the strong will always roll)
The strong will survive, with rock `n' roll
The strong will always rock (the strong will always rock)
The strong will always roll (the strong will always roll)
The strong will survive, with rock `n' roll

Yeah!
