

I Can Feel Forever

Black Oak Arkansas

Love is the nectar
Of the sweet fruit of life
I can't help but hold you
And squeeze you so tight
I brought the first love
Tear from your eye
Captured your spirit
And kept it alive

Workin seems worth it
To come home again
You're the lover I wanted
And also my friend
Hot summer nights
Psychedelic flights
When you touch me so slowly
It feels so holy
I can feel forever
When I'm feelin' you
If you wanna feel forever
You can feel me too

Layin beside me
I know what's on your mind
I want to reach and touch you
I know what I will find
Always so ready
Never sick of feelin' blue
If there's one thing I depend on
Baby, it's you

I can feel forever
When I'm feelin' you
If you wanna feel forever
You can feel me, too.
