

## Keep The Faith

Black Oak Arkansas

When troubles got you down  
and sorrow's all around  
if you think your loves all been in vain  
just cry to end the pain.

Please keep the faith, we need it.

You look for a way out  
of this sea of doubt.  
It looks hard I understand  
swimmin when you can't see land.

Please keep the faith, we need it.

You need to see the country  
but something holds you back.  
Travel near, far and wide.  
Have no fear or nothing to hide.

Please keep the faith, we need it.  
If you're tired of the human race,  
and you can't find yourself in pace,  
there's too many games goin round  
and the Man's tryin to bring you down.

Please keep the faith, we need it.
