

White headed woman

Black Oak Arkansas

White-headed woman
White-headed woman
Ain't had a chance yet
Ain't had a chance yet
White-headed woman
White-headed woman
Only got your pants wet,
Only got your pants wet
You know I want you,
You want me too I bet,
You want me too I bet

White-headed woman
White-headed woman
Maybe when the time is right
Maybe when the time is right
White-headed woman
White-headed woman
Maybe you can spend the night
Maybe you can spend the night
Won't get much sleep then
But we'll feel all right
But we'll feel all right
I can tell by the look in your eyes
It has come of no surprise.
By the way that you lick your lips
You know what you're gonna get.

'Cause I want you
White-headed woman
White-headed woman

I want you this afternoon
I want you this afternoon
White-headed woman
White-headed woman
Please come soon
Please come soon
I can feel the vibes
A humpin on through the room
A humpin on through the room

White-headed woman
