Just give me something to feel  
I'm waking out of a dream  
Never had to feel love  
Never had to really know

Just give me some other way  
I'm holdin' on to the grave  
Never had to realize  
Never had a real love

I don't need no one  
I don't want no one  
I ain't got no one  
Don't wanna be alone

Just give me somethin' to pray  
The light is slipping away  
Never had a real love  
Never had to feel alive

I don't need no one  
I don't want no one  
I ain't got no one  
Don't wanna be alone
