Black Rebel Motorcycle Club

Just give me something to feel
I'm waking out of a dream
Never had to feel love
Never had to really know

Just give me some other way
I'm holdin' on to the grave
Never had to realize
Never had a real love

I don't need no one
I don't want no one
I ain't got no one
Don't wanna be alone

Just give me somethin' to pray
The light is slipping away
Never had a real love
Never had to feel alive

I don't need no one
I don't want no one
I ain't got no one
Don't wanna be alone
