

# Killing the Light

Black Rebel Motorcycle Club

She said you're killing the light  
You'll never see it again  
We come to suffer I said  
I won't be fooled by the light  
I won't be fooled by the lie

The easy road lies in wait  
Takes it's toll and all it desires  
Leads you blind  
Leaves you there  
Takes your heart and leaves you in silence

Ooh  
Look what you've started  
Ooh  
Look what you've started  
Ooh  
Look what you've started  
Ooh  
We're all broken hearted

She said don't leave us behind  
We'll never be here again  
Our lives are closer this way  
I won't be fooled by the light  
I won't be fooled by the lie

The easy road lies in wait  
Takes it's toll and leaves you in silence  
Leads you blind  
Leaves you there  
Takes your heart and all that you wasted

Ooh  
Look what you've started  
Ooh  
Look what you've started  
Ooh  
Look what you've started  
Ooh  
We're all broken hearted
