

Rival

Black Rebel Motorcycle Club

I got self preservation, my eyes on survival
I'm living with the lost, and we're livin' in denial
It begs to question, who's gonna carry on
If no one's awake, then there's no one who can play along

I need a rival, I need a rival
I'm tired of the fools who are killing for survival
I need a rival, I need a rival
I found my soul, let's set it on fire

I'm not the righteous, I'm not the innocent
I'm just a sign it's all gone wrong
We're not the righteous, we're not the innocent
We're just a sign it's all gone wrong

Well I got the message, there's no one available
I've seen it all before, and I'm fine if you say so
I go to places no one should ever go
I'm living like I knew what the hell I was looking for

I need a rival, I need a rival
I'm tired of the fools who are killing for survival
I need a rival, I need a rival
I found my soul, let's set it on fire

My soul's on fire I live in superstition
I'm a fool on fire, I carry on the fight (3x)

We're not the righteous, we're not the innocent
We're just a sign it's all gone wrong
I'm not the righteous, I'm not the innocent
I'm just a sign it's all gone wrong

I need a rival, I need a rival
I'm tired of the fools who are killing for survival
I need a rival I need a rival
I found my soul, let's set it on fire
