

## Shadow's Keeper

Black Rebel Motorcycle Club

The shadow's creeping, only one way left to go  
You hit the bottom where the silence only grows  
It's never alone

You feel the fire burning sweet within your skin  
You're holding on to all the branches crashing in  
It's pulling you in

But you feel the light shine so bright  
But you feel the light shine so bright

What is the purpose if you feel so incomplete  
What is the reason if it beats you to your knees  
What do you keep

Your eyes were wide but there's a world that keeps you blind  
A painted serpent turning water into wine  
Seeking light

But you feel the light shine so bright  
But you feel the light shine so bright

You're begging for the truth but now you've seen too much  
You're living in your head but never feel their touch  
And everything was buried by the deep blue sky  
Help me to breathe 'cause I don't wanna see the light  
Just tell me to breathe 'cause I don't wanna be denied  
Just tell me to breathe 'cause I don't wanna be denied

Catch on fire  
Catch on fire  
Catch on fire
