

Sympathetic Noose

Black Rebel Motorcycle Club

I got a feeling I can't lose
I got a sympathetic noose
But I don't know how to be grateful
Yeah, I don't know how you're thankful

I got a feeling I can't lose
I got a sympathetic noose
'Cause I don't know how to lean on
Yeah, I don't know how to be freed from

You got to keep you head up
You got to let yourself get through

When all you'll ever dream
Lifts you up too high
As all your expectations leave a hole inside
And all you'll ever dream
Lifts you up too high
As all your expectations leave a hold inside

I got a feeling in my boots
I got to make some sense to you
'Cause I don't know how to be careful
Yeah, I don't know how to be there for
I got a feeling I can't prove
I got a sympathetic noose
'Cause I don't know how you're grateful
Yeah, I don't know how to be thankful

You got to keep you head up
You got to let yourself get through

As all you'll ever dream
Lifts you up too high
As all your expectations leave a hole inside
And all you'll ever dream
Lifts you up too high
As all your expectations leave a hole inside
