

# Like A Bitch

Black River

You don't need to say it  
I fire myslef, so don't bother honey  
I'm like part time worker  
Doing job for your company

Here are the news I can't stand your wisdom  
I doubt your power, your beauty and style  
You tried so hard but you never made it  
I still can find friends on my side

You don't need to say it  
I know your words by heart  
I'm not involved no more  
I'm leaving it all behind

You don't need to say it  
I fire myslef, so don't bother honey  
I'm like part time worker  
Not too loyal to your company

Here are the news I can't stand your wisdom  
I doubt your power, your beauty and style  
You tried so hard but you never made it  
I still can find friends on my side

You don't need to say it  
I know your words by heart  
I'm not involved no more  
I'm leaving it all behind

no more, no more
