

Country Girl

Black Sabbath

Fell in love with a country girl, morning sunshine
She was up from a nether world, just to bust another soul
Her eyes were an endless flame, holy lightning
Desire with a special name, made to snatch your soul away, yeah

We sailed away on a crimson tide, gone forever
Left my heart on the other side, all to break it into bits
Her smile was a winter song, a Sabbath ending
Don't sleep or you'll find me gone, just an image in the air

In dreams I think of you
I don't know what to do with myself
Time has let me down
She brings broken dreams, fallen stars,
the endless search for where you are
(sail on, sail on)

Fell in love with a country girl, morning sunshine
She was up from a nether world, just to bust another soul
Her eyes were an endless flame, unholy lady
Desire with a special name, made to snatch your soul away, oh!

Don't sail away on a crimson tide!
Don't leave your heart on the other side!
Her eyes are an endless flame
Desire with a special name
Don't ever fall in love!
Don't give your heart away!
No never, never fall in love with a country girl!
