

Keep it Warm

Black Sabbath

Sweet woman are you feeling right?
What was it that you did last night?
You made me crazy you made me fly
I can't forget the hungry look in your eye
Ooh what's the matter with me
I'm just a runner I was born free
But since I met you I can't leave you alone
I'm leaving now but I'll be coming home

Keep it warm at the place by your side
Nobody's gonna take away our magical ride
Keep it warm for when we talk on the phone
Don't forget will you pretty one
That your man is coming home

D'you hear the rumor that is going around
Say I'm ruined 'cos I'm settled down
It's not true well maybe half and half
You know I love you but I still like a laugh
Ooh I'm feeling fine
I got it right for the first time
Sweet woman I can't stay for long
But everybody will be proved wrong

I'm like a gypsy, I need to roam
But don't worry, I'll be coming home
I need the danger I need the thrill
I need to know what is over each hill
Ooh I'm a different man
I'm still running but you understand
Since I met you I can't leave you alone
I'm leaving now but I'll be coming home
