

# Wishing Well

Black Sabbath

Throw me a penny  
And I'll make you a dream  
You find that life's not always what it seems  
Then think of a rainbow  
And I'll make it come real  
Roll me, I'm a never ending wheel

I'll give you a star  
So you'll know  
Just where you are  
Don't you know that I might be  
Your wishing well, your wishing well

Look in the water  
Tell me what do you see  
Reflections of the love you give to me  
Life isn't money  
It's not something you buy  
So let me fill myself with tears you cry

Time is a never ending journey  
Love is a never ending smile  
Give me a sign to build a dream on, dream on...

Yeah, throw me a penny  
And I'll make you a dream  
You find that life's not always what it seems  
Love isn't money  
It's not something you buy  
Let me fill myself with tears you cry

I'll give you a star  
So you'll know just where you are  
Someday, some way you'll feel the things I say  
Dream for a while of the things that make you smile  
Don't you know, don't you know  
Oh you know that I'm your wishing well  
Your wishing well...
