

# Kingdom Of The Lost

Black Star Riders

Come here and listen to me boys  
For the story that I tell  
How I crossed the sea from Erin's shore  
A man condemned to sail

To a land of milk and honey  
And whiskey by the pail  
They promised me a future there  
A life that would not fail

For it's a rocky road you travel  
Trying to walk a righteous path  
I left my love back there  
With our baby on her lap

I'm putting down my sword now  
I'm hanging up my gun  
I haven't got the will to fight  
This battle lost or won

This home is not our home from home  
This land is not for free  
No matter where I work or roam  
Won't bring my country back to me

This home is not our home from home  
This land is not for free  
No matter where I work or roam  
Won't bring my country back to me

In the kingdom of the lost

The bullets keep on coming  
And the rain it never ends  
I don't know who I'm killing now  
My enemies or friends

I'll drink away the darkness  
Till the dawn comes around  
You can take me if you want to  
Carry on, my guard is down

This home is not our home from home  
This land is not for free  
No matter where I work or roam  
Won't bring my country back to me

In the kingdom of the lost

Come here and listen to me boys  
For the story that I tell  
How I crossed the sea from Erin's shore  
A man condemned to sail

To a land of milk and honey  
And whiskey by the pail  
They promised me a future there

A life that would not fail

This home is not our home from home  
This land is not for free  
No matter where I work or roam  
Won't bring my country back to me

I'm a rebel without a cause

This home is not our home from home  
This land is not for free (I'm a patriot without a heart)  
No matter where I work or roam  
Won't bring my country back to me

In the kingdom of the lost  
In the kingdom of the lost.
