

## Big City Lights

Black Stone Cherry

Big city lights don't shine for me no more  
You know somebody took my angel  
And now she's gone for sure

There's a street sign on a lamp post  
Where we used to hang  
It's on the corner of love and trust  
Down by the river bank

Somehow we lost our way  
On the dark end of the street  
Now we sit here every night  
Listen to the band  
And can you hear them say?

Big city lights don't shine for me no more  
You know somebody took my angel  
And now she's gone for sure  
To save somebody else who couldn't save them self  
Big city lights don't shine for me no more

If you ever come to our town  
Don't go where angel plays  
You know she'll take you under her wing  
Then she'll just fly away

Just like she broke the heart  
Of every boy from love and trust  
Now we sit here every night  
Listen to the band  
And can you hear them say?

Listen to us say

Big city lights don't shine for me no more  
Know somebody took my angel  
And now she's gone for sure  
They to save somebody else who couldn't save them self  
Big city lights don't shine for me no more (no no)

Big city lights don't shine for me no more  
You know somebody took my angel  
And now she's gone for sure  
To save somebody else who couldn't save them self  
Big City lights don't shine for me no more

Big city lights  
Big city lights
