

Let Me See You Shake

Black Stone Cherry

Beat was spinnin' round again
And these five words are what I said

Let me see you shake
Let me see you shake
Let me see you shake what your momma gave ya down to the floor
Let me see you shake

She'd been goin' all night long
When she said oh damn this is my song
And then the beat went spinnin' round again
These five words are what I said

Let me see you shake
Let me see you shake
Let me see you shake what your momma gave ya down to the floor
Let me see you shake

Must have been about a quarter to three
That girl was hailin' a cab outside the whiskey
She squeezed my lemon just to drink the juice
But California loves what turned her loose

Let me see you shake
Let me see you shake
Let me see you shake what your momma gave ya down to the floor
Let me see you shake

Let me see you shake
Let me see you shake
Let me see you shake what your momma gave ya down to the floor

Let me see you shake
Let me see you shake
Let me see you shake what your momma gave ya down to the floor

Let me see you shake
Let me see you shake
Let me see you shake what your momma gave ya down to the floor
Let me see you shake
