

Rollin' On

Black Stone Cherry

Smoke another cigarette
Reminisce on a girl I met
Watch another day pass me bye
A country road that takes me home
The only place that I've ever known
I sure do love that Rocky Mountain sky

Just like the seasons I'm gonna change
Like the clouds I'm rollin' on
Hey, Merle Haggard I know what you mean
When you say sing me back home

Got my wheels stretched out on a road
Them yellow lines that free my soul
Mama always said that I was born to roam
Headed down the highway
Livin' life the free way
Today I'm here but tomorrow I'm gone

Just like the seasons I'm gonna change
Like the clouds I'm rollin' on
Hey, Merle Haggard I know what you mean
When you say sing me back home

I've smoked another cigarette
Reminisced on the girls I've met
Watched another day pass me bye

Just like the seasons I'm gonna change
Like the clouds I'm rollin' on
Hey, Merle Haggard I know what you mean
When you say sing me back home
