

# Won't Let Go

Black Stone Cherry

I wonder where we'll be  
Will everything we see still look the way it does today  
Will everything we have be everything it is  
If we go our separate ways.  
Down by the river every summer  
We had nothing but time on our side  
Talking about forever how we'd always be together.

R: Life keeps us runnin'  
Chasin' and fallin'  
But we won't let go.  
When the world keeps on turnin'  
Our hearts are hurtin'  
But we won't let go

I wonder where we'll be when we're thirty three  
Will we still be who we are?  
Will everything we know be everything we hoped  
Will we still have that spark  
Another cold December and I can still remember  
The way you say we'd always be together no matter what the weather.

R:

When the distance hurts and it all gets worse  
These are the times that we will remember  
When the darkness fades we will still remain  
Inseparable, unstoppable, invincible

Down by the river every summer we had nothing but time  
Talkin' about forever how we'd always be together.

R: (2x)
