

Black Abyss

Black Tide

There's nothing left for me to say
The thought of end is killing me
I guess it's time for my demise
There's no more time
I'm left aside
There's no more pain
There's no more tears
There's no more feeling
No more fear
The darkness creeps upon my skin
These wounds won't heal
This is my sin

This is the black abyss
My life's apocalypse
Eternal suffering
No future for me to see

This is the black abyss
Executor of my soul
This darkness fills my eyes
And I'm now left behind

As my life rots away
I long the day of my decay
I'll soon be there in death's grasp
It won't let go now I'm dead
This paranoia
I can't last
These days are now my last
The sense of evil is closing in
It is a phobia that kills within

This is the black abyss
My life's apocalypse
Eternal suffering
No future for me to see

This is the black abyss
Executor of my soul
This darkness fills my eyes
And I'm now left behind

This is the black abyss
My life's apocalypse
Eternal suffering
No future for me to see

This is the black abyss
Executor of my soul
This darkness fills my eyes
And I'm now left behind
