

## Black Abyss

Black Tide

There's nothing left for me to say  
The thought of end is killing me  
I guess it's time for my demise  
There's no more time  
I'm left aside  
There's no more pain  
There's no more tears  
There's no more feeling  
No more fear  
The darkness creeps upon my skin  
These wounds won't heal  
This is my sin

This is the black abyss  
My life's apocalypse  
Eternal suffering  
No future for me to see

This is the black abyss  
Executor of my soul  
This darkness fills my eyes  
And I'm now left behind

As my life rots away  
I long the day of my decay  
I'll soon be there in death's grasp  
It won't let go now I'm dead  
This paranoia  
I can't last  
These days are now my last  
The sense of evil is closing in  
It is a phobia that kills within

This is the black abyss  
My life's apocalypse  
Eternal suffering  
No future for me to see

This is the black abyss  
Executor of my soul  
This darkness fills my eyes  
And I'm now left behind

This is the black abyss  
My life's apocalypse  
Eternal suffering  
No future for me to see

This is the black abyss  
Executor of my soul  
This darkness fills my eyes  
And I'm now left behind
