

# Bury Me

Black Tide

Take my life, cause it's already over  
One year closer to the end of it all  
One year closer to the end of it all

Every day I grow weaker  
Wrapped up in the arms of fear  
All this pain's taking it's toll  
Gravity can't keep me here

Take my life, cause it's already over (Just bury me, just bury me)  
Take my life, cause it's already over (Just bury me, put me six feet underground)

One year closer to the end of it all  
One year closer to the end of it all

Every second feels longer  
Every minute leaves me numb  
Every hour screams death  
Every day I die slowly

Take my life, cause it's already over (In my mind, in my mind)  
Take my life, cause it's already over (My mind is running with thoughts of the dead)  
Take my life, cause it's already over (Just bury me, just bury me)  
Take my life, cause it's already over (Just bury me, put me six feet underground, ground!)

One foot in the grave  
Torture me this way  
There is no escape  
I'm one year closer, one year closer

Take my life, cause it's already over (In my mind, in my mind)  
Take my life, cause it's already over (My mind is running with thoughts of the dead)  
Take my life, cause it's already over (Just bury me, just bury me)  
Take my life, cause it's already over (Just bury me, put me six feet underground)

One year closer to the end of it all  
One year closer to the end of it all
