Black Tide

I will not follow the path
You've laid out before me
I'll break these chains one by one
I'm an outcast chasing dreams
Born in misery
This world is a broken home

Life flashes before our very eyes
And we're blinded by the light

So when I meet the end
I wanna know that I lived all I could
From the outside with no Guidelines
I will never pretend to be satisfied
Spilling blood for a dime
I'll live my life with no Guidelines

Livin' like there's no tomorrow
Keep my vices well fed
There is no more right or wrong
I've let go of all control
I'll find peace when I'm dead
My beliefs are what keep me strong

Life flashes before our very eyes
And we're blinded by the light

So when I meet the end
I wanna know that I lived all I could
From the outside with no Guidelines
I will never pretend to be satisfied
Spilling blood for a dime
I'll live my life with no Guidelines

On the outside...there's no Guideline
I'll live my life...with no Guidelines

Though dreams come with uncertainty
I'll chase mine endlessly
I'll live my life with no restraints
I will not die in vain

So when I meet the end
I wanna know that I lived all I could
From the outside with no Guidelines
I will never pretend to be satisfied
Spilling blood for a dime
I'll live my life with no Guidelines
