

Predator (Animal)

Black Tide

There's violence in me
It runs so fucking deep
Yea it's the beast within me
Screaming to be unleashed

How do they keep control?
It's tearing me the hell apart
Maybe I don't bare a soul
My morals lie deep in the God damned dirt

All I have left is a set of instincts
Crying out for the blood of innocence

I am an animal
Born to be wild, feeding off of my kills
Become the prey or the predator
I am an animal
Born to be wild, feeding off of my kills
Become the prey or the predator

I won't be a victim..Ever again!
Approach me the wrong way
You'll meet your fucking end

Don't make me lose control
You won't like what follows
Man, I don't bare a soul
I'll leave you bloodied and bowed

All I have left is a set of instincts
Crying out for the blood of innocence

I am an animal
Born to be wild, feeding off of my kills
Become the prey or the predator
I am an animal
Born to be wild, feeding off of my kills
Become the prey or the predator

All I have left are my instincts
All I have left are my instincts

So far beyond
The breaking point
Now it's insanity
I need to avoid

Trying to contain this rage
Is hell on earth
How do they keep control?
And what the fuck is it worth?

All I have left is a set of instincts
Crying out for the blood of innocence

I am an animal
Born to be wild, feeding off of my kills

Become the prey or the predator
I am an animal
Born to be wild, feeding off of my kills
Become the prey or the predator
