

# Falling Down

Black Tusk

Back and forth  
Under and gone  
Pushed and pulled  
Surrendered all hope  
Memories fade  
Days move on  
Push it all down  
Take it in stride

Wear a smile  
Question nothing  
Live in a dream  
Life moves

Round and round  
Never again  
Round and round  
Maybe again  
Round and round  
Like before  
Round and round  
Happens again

Fall  
Find the weakness  
Break it open  
Smash it up  
Heart attack  
Eyes are closing  
Mind is empty  
Soul is fading  
Lose control

Darkness opens ground is  
Barren sun is burnt out  
Falling forward  
All is empty gasp for breath  
Down the tunnel  
There's no light

I don't have control  
My life already gone  
Gave me nothing returned  
I fall

Down  
We're falling  
Down  
The dream is  
Dead  
We crashed and  
Burn  
Close your  
Eyes

Evacuate your soul  
There's just one more trip

Lifetime spent on what  
Were falling down  
Down
