

# Abortion

Black Uhuru

First degree murder  
Adults 16 and over only

Abortion, abortion,  
you've got to have caution  
Abortion, abortion,  
you've got to have caution

I remember that night  
we were together  
sharing Jah love with one another  
Those nights I can't forget  
Lord knows I did sweat

Abortion, abortion,  
you've got to have caution  
you've got to have caution

Took a minor strain of contraceptive  
Blood vessel bursts in their brain  
Oh, what a shame, oh, what a strain,  
To see my black sisters going down the drain

Abortion, abortion,  
you've got to have caution  
Abortion, abortion,  
you've got to have caution

A woman was made from the rib of a man  
To multiply, and not to divide  
So leave your pills and thrills and your world of sodomy  
Show unto yourself, woman, no sympathy

Abortion, abortion,  
you've got to have caution  
you've got to have caution

I said throw away the boots, I want my little youth  
Throw away the pills, I need my little girl  
Woman, you've got feelings  
Woman, you've got feelings  
Woman, you've got feelings  
You're bright like a star
