

## Brother Go On

### Black Water Rising

Little man get a big plan make a big stand  
Better join the fight  
Got to rise from those dirty roots if you want the fruits  
got to make it all right

I know it's hard to believe but there are those who decieve  
and they're playing you like a fool

Just a number and slave  
from the womb to the grave  
Yes, the truth can be so cruel so...

Go on, brother, go on  
burn Your name across the sky  
make a move before you die

See the man with the current plan well  
he don't understand  
the working man

He will claim he can feel  
Your pain and he will promise gain  
but he's the only one gaining

I think, it's time to dispose  
of the leaders we've chose  
seems the enemy lies within

We need to make a new start  
before they tear us apart  
so set it off brother  
let it begin
