

Last Man Standing

Black Water Rising

Forgive me father for I'm about to sin
Kill my brother and let this war begin
As it had been since the rise of man
I have come to understand it's just the way it is

I have seen the hate of men who conquer and condemn
Bring the world down to it's knees
And spread like a disease
As their numbers grow they crush those who oppose
That's just the way it is

(Chorus)

The face of the world is covered with the blood
Of endless fallen broken souls
And soon you'll discover this is life's decree
You must defeat your enemy

Last man standing is the king of the hill
Last man standing is going in for the kill
And he will

Forgive us mother for your sorrow and your pain
Brother kills brother as the world goes insane
And this will be the fall of man
I have come to understand it's just the way it is

(Chorus)

Last man standing is the king of the hill
Last man standing is going in for the kill
And he will

Last man standing is the king of the hill
Last man standing is going in for the kill
And he will
