

Living Proof

Black Water Rising

Insanity with its little teeth
Is gaving at my brain
And slowly driving me insane...

Black water
Black water
Black water fever's drowning me!

Black water fever...
Drowning me!

For suffering will always be provided
For those in need
And i'm being punished for my deed...

Drowning me!

This is the harvest that we reap
And it's growing from the baddest sced
Once more the circle is complete...

Black water fever...drowning me!
