

Pissed And Driven

Black Water Rising

A million mile an hour
Punch a hole in the sky
Hearts race with adrenaline
A lifetime in the blink of an eye

It's an atomic reaction
An uncontrollable blast
There is nothing deeper
There is nothing as vast

(Chorus)
Engines in overdrive
Screaming like a demon when I come alive
Push that needle to the red
Then I do it again get driven
Pissed and driven

Conquer the mountain bring on the fight
Within it awakens finally seeing the light
It's beyond the threshold and faster than fear
To live for the moment when the moment is here

(Chorus)
