

## Pissed And Driven

## Black Water Rising

A million mile an hour  
Punch a hole in the sky  
Hearts race with adrenaline  
A lifetime in the blink of an eye

It's an atomic reaction  
An uncontrollable blast  
There is nothing deeper  
There is nothing as vast

(Chorus)

Engines in overdrive  
Screaming like a demon when I come alive  
Push that needle to the red  
Then I do it again get driven  
Pissed and driven

Conquer the mountain bring on the fight  
Within it awakens finally seeing the light  
It's beyond the threshold and faster than fear  
To live for the moment when the moment is here

(Chorus)
