

Hey I was right you were wrong

Black

Hey, hey what you say just might be true
But I still can't take a chance on you if it's true
Oh if it's true
We've had our problems just trying to make the whole thing last
You thought that we might break if we drove too fast
Oh it is true
Just like I used to do

I was right, you were wrong
Who's picking holes in who?
You were always a silly child
I was right, you were wrong
Oh look at you
You were always a silly child

Hey, hey what you say just might be true
Then there'll be nothing left of me and you when I'm through
if it's true
You are my target, I plan to make this last a while
I could sit and watch you suffer with a smile
Just like I used to do

I was right, you were wrong
Who's picking holes in who?
You were always a silly child
I was right, you were wrong
Oh look at you
You were always a silly child
