

## Learning How To Hate

Black

Rubberband, you're like a rubberband  
You keep on snapping back at me  
So this is jealousy  
Hollow vase, you're a hollow vase  
and when you talk to yourself  
You hear an answer back

What kind of world are you living in?  
What type of sweet thing would make the medicine better?  
What type of world are you waiting for?  
You give me one one of those headaches  
One drink won't take away  
(Learning how to hate)

Rumour true, rumour false - it's all the same to you  
On cloud cuckoo  
And every mistake I've ever made  
Comes back to haunt me  
My own fools gallery

Our clam chowder comes without the powder  
It doesn't happen here  
This is a nice place

What kind of world are you living in?  
What type of sweet thing would make the medicine better?  
What type of world are you waiting for?  
You give me one one of those headaches  
One drink won't take away  
(Learning how to hate)
