## Let's Talk About Me

Little queen beware, fashion tempers flare And they light up with a brilliant glare Page after page, after page, after page after page A hollow vase only costs ten pounds But an empty vessel makes the loudest sound And you have to get heard in this loudest of towns Or go under We don't care if you can't pay, We don't care what you've got to say We don't hear when you cry out Our smiles are hollowed out Let's talk about me (Vamos a hablar de ti) Let's talk about me (Vamos a hablar de ti) The people look like ghouls in the neon light Get the big city blues every single night World gone crazy? It was never sane- not now Not ever Bars full of couples not talking to each other Seeking solitude in the company of others "We're not in love- we just can't resist each other At playtime We don't care if you can't pay We don't care what you've got to say We don't hear when you cry out Our smiles are hollowed out Let's talk about me (Vamos a hablar de mi) Let's talk about me (Vamos a hablar de ti) Let's talk about me (Vamos a hablar, hablar, hablar) Let's talk about me (solo) We don't care if you can't pay We don't care what you've got to say We don't hear when you cry out Our smiles are hollowed out Let's talk about me Let's talk about me Oh, let's talk about me, me, me, me, me, me Oh (Vamos a hablar de mi) Let's talk about me (Vamos a hablar, hablar Vamos a hablar de mi Vamos a hablar, hablar, hablar Vamos a hablar de mi Vamos a hablar de mi)
