

# Paradise

Black

I feel the weight of your heart  
And I know a way it can change  
I know the weight of your heart  
I know a way we can rise

Just hold my hand and we can make it to paradise  
Just slip inside and we can make it to paradise

Because, just like a forming rainbow  
Just like the stars in the sky  
Life should never feel small

We are losers now  
It wouldn't hurt to try  
Oh wrap me up in passionate arms  
And tell me, tell me you love

For I need to know if we're to get to paradise  
Just take my hand and we can make it to paradise  
Because, just like a forming rainbow  
Just like the stars in the sky  
Life should never feel small

And we roll and dive and laugh and cry about it  
Right out into paradise  
Just like a forming rainbow  
Just like the stars in the sky  
Life should never feel small  
Oh, never feel small  
And we roll and dive and laugh and cry about it
