

# Califormula

Blackbear

I just bought some drugs  
Off a man I didn't know, in the lobby  
In the lobby of the Roosevelt  
As if you didn't warn me enough

I got that Califormula  
Got that Califormula  
One more night  
Got that Califormula

No use in thinking 'bout it now  
Cuz you're gone

So I leave it all behind  
I always feel like I'm behind  
I try to sleep but I  
I'm faded out my mind  
Lay me down tonight  
I always feel like I'm beside you

I got that Califormula  
Got that Califormula  
One more night  
Got that Califormula

Ooh (3x)  
One more night  
Got that Califormula  
Thinking 'bout you now  
But where are you  
Where are you going  
You're gone
