Blackbear

Was it even real to you baby
Cause it was real to me
Was it even real
Cause if it was real

Is it still the same way that you wanted it
The same way that you needed it
So tell me if it's real
Baby tell me if it's real
Tell me how you feel

Window sounds of rain
Nobody at the bar

Where are you going
Is it still the same way that you remember it
Or was it ill praised when it was over with

Was it even real to you baby
Cause it was real to me
Was it even real
Cause if it was real
Where the fuck are you going

Is it still the same way that you wanted it
The same way that you needed it
So tell me if it's real
So tell me if it's real
Fuckin' tell me how you feel

Lesson learned

Where are you going

Where are you now
Where are we going
Cause I just wanna feel you now
Just wanna feel you now, yeah
So tell me if it's real
Tell me how you feel
Cuz I just wanna lay you down
Just wanna feel you now
