

# Make Daddy Proud

Blackbear

What is it with you  
You never sleep alone girl  
You won't listen to me  
Won't listen to your home girls  
You don't need a man  
You say that shit but I see right through, right through

What is it with you  
Constantly fighting me and lying to me  
Tryin' me  
One of these days I'll be done  
What is it with you  
You haven't been the same since you got a new man  
Change your hair

Started spending all of his money  
Tell me how'd you get so codependent girl  
All of his money  
Justify your independence girl  
Tell me how do you cope with it  
How do you sleep with yourself at night  
How do you cope with it  
How do you sleep with yourself at night

Proud of you  
Proud of you  
Go head girl make daddy proud of you  
Spending his money  
Proud of you  
Proud of you  
Go shawty make daddy proud of you  
Spending his money

Tell me what is it with you  
Everything disposable  
You don't listen to  
Deadroses its Trapsoul and Views now  
You never come and see me no more  
You never hit me back  
Scared to make your daddy mad  
That's for sure  
You never came to the crib to get your Jimmy Choo's

Started spending all his money  
Tell me how'd you get so codependent girl  
All of his money  
Justify your independence girl  
Tell me how do you cope with it  
How do you sleep with yourself at night  
How do you cope with it  
How do you sleep with yourself at night

Proud of you  
Proud of you  
Go head girl make daddy proud of you  
Spending his money  
Proud of you

Proud of you  
Go shawty make daddy proud of you  
Spending his money
