

Nevada

Blackbear

She looks like a model
Wearing nothing but diamonds in her ears
She's the girl from Nevada
I don't know how she makes the money to live here
Oh...But she's got Gucci and Prada
High heels that I never see her wear
I just love that persona
The superstar you think you are

I, I, I, I Try to tell her that she's worth it
But she wants something perfect
And I don't know what that shit is so

She needs something beautiful, beautiful
She needs something perfect
She needs something beautiful, beautiful
She needs something perfect

Yeah

She needs something better to get her through the weather

I'm just like my father
I don't know when enough is enough is enough
But I waited through Autumn
I can't wait forever for your love
Can't you understand
California is so long from home
And I don't wanna be alone, alone

I want to give you something perfect
Trust me girl, you deserve it
But I don't know if that shit exists so

She needs something beautiful, beautiful
She needs something perfect
She needs something beautiful, beautiful
She needs something perfect

Yeah

She needs something better to get her through the weather
She needs something better to get her through the weather
