

Sail Away

Blackbear

You could travel the world
And realize you never had a home
Diamonds in the rough
Are sometimes mirrors in smoke

And you could travel the sea
And realize you never had a dream
Changing the world overnight
Is sometimes harder than it seems

If you bring me back to the place we found it
We'd do it all again, do it all again
Bring me back to the place we fell in love
We could do it again

We could sail away ay ay
Away away away
Sail away ay ay
Away away away
Sail away
Sail away

You could try to be free
You could try to be supernatural
But I like the way that you are
But I like the way that you are just fine

And you could travel to find
Whatever it is you looking for
I know that you're sailing away again
Just like you did before

So go and sail away ay ay
Away away away
Sail away ay ay
Away away away

We could sail away ay ay
Away away away
Sail away ay ay
Away away away
Away ay ay
Away away away
Sail away
Sail away

You could travel the world
And realize you never had a home
You could travel the world
And realize you never had a home
You could travel the world
And realize you never had a home
You could travel the world
And realize you never had a home
