

Santa Monica & La Brea

Blackbear

On the way down to your house
Santa Monica and La Brea
Watch the vampire score some dope
Tie my shoes, run through your mind

What if we never met?
Wondering in pointless conversations
What if we never said "Hello" and "What's your name?"

And maybe I could die treading water
Drowning under moonlight sonata
So kill me like you used to, love me like you never did
Fuck me like we never gon' see each other again
So kill me like you used to, love me like you never did
Fuck me like I'm never coming back, babe

Oh yeah, ah yeah, oh yeah, ah yeah
Fuck me like I'm never coming back home, yeah

On the way down to your house
Got a fifth of Jack, spoiled my liver
Maybe I could drown my fears
Scared to say back then I loved her

What if we met before?
Maybe it's not coincidental
Maybe it's elementary love
Never believed in meant to be

And maybe I could die treading water
Drowning under moonlight sonata
So kill me like you used to, love me like you never did
Fuck me like we never gon' see each other again
So kill me like you used to, love me like you never did
Fuck me like I'm never coming back, babe

Yeah yeah yeah ah
Yeah yeah ah
So kill me like you used to, love me like you never did
Fuck me like I'm never coming back home
Fuck me like I'm never coming back home
Fuck me like I'm never coming back
Fuck me like I'm never coming back home
Fuck me like I'm never coming back
Like I'm, like I'm never coming back home, home
So kill me like you used to, love me like you never did
