

No Way Back To Eden

Blackberry Smoke

There's no well-beaten path
We left nothing along the way
Come too far to turn back
Let the chips fall where they may

Oh my life
I won't get a chance to go thru it twice
Oh my mind
Is holding on to things I left behind

They say that you gotta go to know
That you wanna come home
There is no shame till you know
There's right and wrong
We dipped ourselves in the river
But we never get clean
There's no way back to Eden
From what I've seen

Bless my old black dirty heart
Throw these memories away
I'll watch the sky for that morning star
And I will let it light my way

Oh this life
Is dragging us one and all out of paradise
Oh this time
Is over that hill and rolling down the other side

They say that you gotta go to know
That you wanna come home
There is no shame till you know
There's right and wrong
We dipped ourselves in the river
But we never get clean
There's no way back to Eden
From what I've seen
