

Six Ways To Sunday

Blackberry Smoke

I'm gonna love you six ways to Sunday
I wanna do it like it's never been done
I'm gonna love you six ways to Sunday
I wanna hear that woman speaking in tongues

Brother I been backslidin' just a little too long
You'd think I'd know by now what's right and what's wrong
Living it up when the skies ain't blue
Chasing my tail, a couple other ones, too

I'm gonna love you six ways to Sunday
I'm gonna do it like it's never been done
I'm gonna love you six ways to Sunday
I wanna hear my baby speaking in tongues

Honey I'll pick up the snakes and drink the strychnine too
As long as I get a chance to lay my hands on you
I got my mind right, toe-in' the line
Look up and tell me does my halo shine?

I'm gonna love you six ways to Sunday
I'm gonna do it like it's never been done
I'm gonna love you six ways to Sunday
I wanna hear that woman speaking in tongues

You knocked the angel right off of my shoulder
Right away my lil devil took over
Woman if you need a disciple
We can have a little revival

I'm gonna love you six ways to Sunday
I'm gonna love you six ways to Sunday
I'm gonna love you six ways to Sunday
I'm gonna love you six ways to Sunday
Yeah
