

# Who Invented The Wheel

## Blackberry Smoke

I wanna know who invented the wheel  
Tell me, who discovered steel?  
It was the wheel and the steel that caused this pain  
Made the car that took her away  
I wanna know who invented the wheel

I wanna who found the rock  
Tell me, who laid the blacktop?  
It was the rock and the blacktop that caused this pain  
That made the road for the car that took her away  
I wanna know who invented the wheel

Somebody give me a name  
I just need someone to blame  
For all of this heartache and pain  
I've been feeling since she let me go  
I wanna know, yeah

I wanna know who invented the time  
I didn't spend when she was mine  
It was all that time I didn't take  
Before the rock and the blacktop that made the highway  
For the wheel and the steel and the car  
That took away, yeah

Somebody give me a name  
I just need someone to blame  
For all of this heartache and pain  
I've been feeling since she let me go  
I wanna know  
I wanna know, yeah  
I wanna know, yeah

I wanna know who invented the wheel
