

## Pain

Blackfield

Here I'm standing on the seashore  
She is gone, now she's gone  
All the angels praying for me  
As I fall, as I fall

While I'm melting in the rain, deep in pain, she is so  
far  
Will we ever meet again as friends, after so long?

To my nightmare with the devil  
I'll go strong, I'll go strong  
All my friends now try to save me  
What a joke, what a joke

While I'm melting in the rain, deep in pain, she is so  
far  
Will we ever meet again as friends, after so long?
